Task 1

1:28

Imagine that you are preparing a project with your friend. You have found some interesting material for the presentation and you want to read this text to your friend. You have 1.5 minutes to read this text silently, then be ready to read it out loud. You will not have more than 1.5 minutes to read it.

Crocodiles are large reptiles. They live mostly in large tropical rivers. The crocodile can snap its jaw shut very fast and has a lot of power closing its jaw, but they have very little strength opening their jaws. Any ordinary person could hold them shut with their bare hands. Crocodiles live in rivers, lakes and dams in parts of America, Asia, Africa and Australia. Some of the crocodiles in Australia live in salt water. These saltwater crocodiles are normally bigger than the ones that live in fresh water. While crocodiles spend most of their time in the water, they can come out and move around on the land. Crocodiles cannot breathe underwater: they breathe air, just like people. They can hold their breath for up to two hours underwater. Their colors range from brown to grey and have different patterns covering them. They can also

Task 3

1:26

These are photos from your photo album. Choose one photo to describe to your friend.

Speak for not more than 2 minutes (12–15 sentences). In your talk remember to speak about:

- where and when the photo was taken
- what/who is in the photo
- what is happening
- why you keep the photo in your album
- why you decided to show the picture to your friend

You have to talk continuously, starting with: "I've chosen photo number ..."
